## Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claims 1,3,5,21,25 and 29, drawn to a silver salt photothermographic dry imaging material characterized by comprising silver halide grains having a specific particle size, classified in class 430, subclass 567.
- II. Claims 2,6,22,26 and 30, drawn to a silver salt photothermographic dry imaging material characterized by comprising a specific non-photosensitive aliphatic carboxylic acid silver salt, classified in class 430, subclass 618.
- III. Claims 4,27 and 31, drawn to a silver salt photothermographic dry imaging material characterized by comprising a specific binder, classified in class 430, subclass 631.
- IV. Claims 7-20, 23,24 28 and 32-39, drawn to a silver salt photothermographic dry imaging material characterized by comprising a specific stabilizing compound, classified in class 430, subclass 607.
- 2. The inventions are distinct, each from the other because of the following reasons: Inventions I, II, III and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation, different functions, or different effects.

Application/Control Number: 10/718,295

Art Unit: 1752

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

- 3. This application contains claims directed to the following patentably distinct species of the claimed invention:
- (a) a silver salt photothermographic dry imaging material characterized by comprising a specific stabilizing compound represented by formula (1);
- (b) a silver salt photothermographic dry imaging material characterized by comprising a specific stabilizing compound represented by formula (2);
- © a silver salt photothermographic dry imaging material characterized by comprising a specific stabilizing compound represented by formula (3);
- (d) a silver salt photothermographic dry imaging material characterized by comprising a specific stabilizing compound represented by formula (4);
- (e) a silver salt photothermographic dry imaging material characterized by comprising a specific stabilizing compound represented by formula (A-8);
- (f) a silver salt photothermographic dry imaging material characterized by comprising a specific stabilizing compound represented by formula (A-9);
- (g) a silver salt photothermographic dry imaging material characterized by comprising a specific stabilizing compound represented by formula (PO);
- (h) a silver salt photothermographic dry imaging material characterized by comprising a specific stabilizing compound represented by formula (J).

Application/Control Number: 10/718,295

Art Unit: 1752

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 7-20, 23,24 28 and 32-39 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4. A telephone call was made to Charles Muserlain on 11 February 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Application/Control Number: 10/718,295 Page 5

Art Unit: 1752

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Geraldine V Letscher whose telephone number is (571) 272-1334. The examiner can normally be reached 7:30am to 4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cynthia Kelly can be reached on (571) 272-1526. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
